To Whom it may concern,

I highly recommend Don Dickson and his team at Triple R Mitigation. I have used Don and Triple R many times for radon and mold mitigation services as well as general remodeling/rehab projects on properties ranging from small homes less than \$200,000 to properties well over \$1 million. Don and his team have excelled at all times and have exceeded my expectations in regards to service and efficiency.

Don and Triple R Mitigation are my first and only call when I require these services in my real estate transactions as well as new construction projects.
